Local Government

UCA 36-12-13(2)(c)

To the extent that counties own property which is outside of the geographical boundaries of the given county, enactment of this legislation could increase property taxes paid by counties to other local taxing entities; the actual impacts would depend on the value of such property and the relevant tax rates applicable to the related tax area in which the property is located. Such additional taxable property would then result in a reduction in the certified tax rate within the recipient taxing entity.

Individuals & Businesses

UCA 36-12-13(2)(c)

To the extent that counties own property which is outside of the geographical boundaries of the given county, enactment of this legislation could increase property taxes paid by counties to other local taxing entities, shifting tax burden away from businesses and individuals within those entities; the actual extent of this shift would depend on the value of such property and the relevant tax rates applicable to the related tax area in which the property is located.

Regulatory Impact

UCA 36-12-13(2)(d)

Enactment of this legislation likely will not change the regulatory burden for Utah residents or businesses.

This bill does not create a new program or significantly expand an existing program.

Notes on Notes

Fiscal explanations estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal explanation is not an appropriation. The Legislature decides appropriations separately.
